

*With years of experience managing the insurance needs of the transportation industry, Perry & Carroll understands your unique needs and will work proactively to lower your risks and your costs.*

## Risk Management for Transportation, Trucking and Storage Companies

We represent multiple insurance carriers to provide the best package for all transportation-related needs:

- Long-haul, intermediate or local trucking with large or small fleets, including coverage for haz-mat/waste haulers, fuel oil/gas transport, or manufactured homes moving
- Interstate, intrastate, or vanline moving businesses
- Warehouse and storage needs

Through an annual and ongoing customized stewardship review and service timeline, Perry & Carroll will cover:

### Improving Safety and Lowering Costs

- Conduct formal off-site driver safety meetings
- Offer certified instructor on staff to teach CDL safe driver training
- Provide payroll inserts featuring DOT regulatory topics and safety information
- Provide videos, literature and presentations on safety and risk management topics
- Manage DOT binders summarizing meeting dates, safety topics discussed and sample copies of payroll inserts

### Managing Risk

- Review new driver motor vehicle records and other paperwork associated with hiring quality employees
- Review indemnification agreements, waivers of subrogation, additional insured requirements, and certificates of insurance to

transfer risk to the appropriate entity whenever possible, or to ensure that you do not take on more risk than necessary

### Managing Claims

- Provide 24/7 claims service
- Employ a designated claims specialist to advocate for you and handle the claim to your complete satisfaction
- Review claim file with adjuster to proactively close cases, manage reserves, and lower costs

### Designing Insurance Programs to Meet Unique Needs

- For trucking programs, coordinate and tailor all coverage at lowest cost, including auto liability, physical damage, cargo, umbrella, package, pollution and logistics
- For moving and storage programs, coordinate and tailor all coverage at lowest cost, including auto liability, property/general liability, physical damage, cargo, warehouse legal liability, rigging and umbrella
- Close risk gaps with insurance against business interruption anywhere on the service provider chain

*"I was an insurance agent for 25 years, so I have a higher service expectation than most buyers. Perry & Carroll meets and exceeds my expectations in terms of their responsiveness, how they tackle coverage issues, and how they handle claims. I probably contact them two or three times a week and they provide all this service at the right price."*
